

#### Week 12 tasks

#### INTENTION BEYOND THE SPIDERS WEB

## True intention empowers you.

Your intention is powerful. Intention is something you purposely choose to carry out. The most powerful intention is aligned with the Divine Will.

An ego intention keeps you trapped within the spider's web of illusion.

The spider's web is a false construct which is not in accordance with the Truth. It holds you stuck within the illusion that you do not have the power to become a conscious co-creator of your world.

The unseen world is there to serve you.

Intention requires trust.

Connecting and working with the unseen world frees you.

Without the trust you cannot untangle from the web and pierce the veil of illusion that intruded and held you back. The labyrinth of memories, images, stories, feelings, judgements, and the confines of the mass consciousness.

# Listen to the inner voice that no-one other than yourself can hear.

Common sense thinking no longer rules your life and decisions, you are now developing and deepening your relationship with the unseen world. This requires trust!

You are now thinking beyond!

Do the cutting of the cords process every morning and evening.

Hand on heart breathing before answering the questions. I AM I AM.

### **Curious question**

What is my intention moving forwards?

Do I choose to continue to grow beyond the confines of the illusion?

Do I choose to remain in partnership with the unseen?

Am I tempted to go back to the old?

Am I willing to move forwards?

### Power questions.

## A power question invokes a response.

What does setting my intention mean to me?

How have I changed over the past 12 weeks?

What was new but now part of me?

What was part of me that no longer rules or exists?

Where did I start 12 weeks ago and where am I now?

Who was I 12 weeks ago and who am I now?

What quantum leaps have I made?

What quantum leaps will I make?

Take your time with each task to gain the most benefit and insight.

### Bonus insight task ~

Write your 12-week Elevation of You **story** and see what it reveals to you, for you and about you.

#### Remember ~

Ask each day as you read the rules of the game. Am I living each rule?

### Complete your weekly landscape creation on Sunday.

Thank you for taking this journey with me. I deeply appreciate you and thank you for playing with the rules of the game. Whatever you do moving forwards, know this. I am your champion on the side lines cheering you on. You have within you the ability to do anything your Soul inspires you to do. All elements of the unseen are here to support you and the Universe exists with you and you exist within the Universe!
